Project Design Phase-I
Problem – Solution Fit Template

Date	27 October 2026
Team ID	
Project Name	FORMULA 1 Race Intelligence Dashboard Analysis Report
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ❑ Solve complex problems in a way that fits the state of your customers.
- ❑ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ❑ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ❑ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ❑ **Understand the existing situation in order to improve it for your target group.**

Template:

1. CUSTOMER SEGMENTS F1 team strategists; broadcast analysts; FIA technical analysts; F1 fans.	**6. CUSTOMER CONSTRAINTS** Race data is spread across seasons and dimensions; manual comparison takes time.	**5. AVAILABLE SOLUTIONS** Separate race tables, reports and charts; limited integrated interactive exploration.
2. JOBS TO BE DONE Compare team points, evaluate tyre compounds, find top drivers and host countries.	**9. ROOT CAUSE** Complex multi-season data makes trends and relationships difficult to spot quickly.	**7. BEHAVIOUR** Users need to filter seasons, drivers, teams, circuits and compounds to answer focused questions.
3. TRIGGERS Upcoming season planning; pre/post-race broadcast; investigation of DNF and reliability patterns.	**10. YOUR SOLUTION** Tableau dashboard, interactive worksheets and a Story based on 6,464 race records across 17 seasons.	**8. CHANNELS OF BEHAVIOUR** Tableau dashboards and exported visuals used in planning meetings, broadcasts and technical reviews.
